National Anthem

by Francis Scott Key

O say, can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming;
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air
Gave proof thro' the night that our flag was still there.
O say, does that Star-Spangled Banner yet wave
O'er the land of the free and the home of the brave!

Alma Mater

by Fred Lewis Pattee

For the glory of old State,
For her founders, strong and great,
For the future that we wait,
Raise the song, raise the song,

Sing our love and loyalty,
Sing our hopes that, bright and free,
Rest, O Mother dear, with thee.
All with thee, all with thee.

When we stood at childhood's gate,
Shapeless in the hands of fate,
Thou didst mold us, dear old State,
Dear old State, dear old State.

May no act of ours bring shame
To one heart that loves thy name,
May our lives but swell thy fame,
Dear old State, dear old State!

PennState

Message from Regina Vasilatos-Younken, B.S., Ph.D.

Vice Provost for Graduate Education and Dean of the Graduate School

To each of our graduates who has earned an advanced degree today, the culmination of your significant accomplishments personifies the ideals that have established Penn State as one of the world's premiere educational institutions and research universities. With your graduate training, I am confident you will make tangible, positive impacts on human and economic development, promote a better understanding of our global and diverse communities, cultivate an enhanced civic and cultural climate, and ensure the continued advancement of professional practice.

As you go forward with your advanced degrees, at every opportunity seek out and get to know individuals who are as different as possible from you, in any and every respect. Diversity in every dimension ensures you will be exposed to different experiences, perspectives, and awareness, and invariably leads to expanding your intellectual horizons. Intellectual diversity is critical in order to solve the truly complex problems that are facing us today, and to prepare you to be contributing members of what will be an increasingly global community.

Today's public health crisis has made evident the need for leaders who take responsibility, apply knowledge, critical thinking, and evidence-based decision-making, collaborate across boundaries, and lead with integrity, all of which exemplify graduate education. You are indeed one of those critical leaders we celebrate today and will rely upon in the future.

The 19th century pioneer microbiologist and chemist, Louis Pasteur, observed that "Chance favors only the prepared mind." You are each well-prepared to take on the considerable challenges we face, and I have no doubt your impact will be purposeful. As you go forward, be well and please continue to expand on the difference you are already making in the world.
